

When does Memorial play? — Minors

Every game Memorial could play in the Minors division, and what has to happen for each one.

How to read this. It's a double-elimination tournament: **two losses and you're out**. A win sends Memorial deeper into the **winners' bracket**; a loss drops them into the **elimination bracket**, where one more loss ends their run. Each row is a game Memorial *could* reach — the right column shows what makes it happen. Times are scheduled **start** times and can run early or late.

- All times are scheduled **start** times; per the bracket, games may start earlier or later depending on the previous game, weather, field prep, and umpire readiness. Be in the dugout 30 minutes before game time.
- Memorial has a first-round bye, so every possible Memorial game is played in Kearney (the Wednesday games in Omaha don't involve Memorial).
- In double elimination, if the elimination-bracket team wins the championship game, an extra "if necessary" deciding game can be required. The bracket doesn't show one, but be ready for the possibility.
